Precious Forgotten Moments Of 1987!*

HAVE YOU EVER WISHED A MOMENT COULD LAST FOREVER?

*Have you ever wished a moment could last forever? The thrill of victory
when the buzzer sounds . . . Sitting with a special friend, staring into a
starlit sky . . . Or even sitting on the top of a ferris wheel looking down
on jumbled people . . . Though we wish these moments would last, they pass
on, bringing the opportunity for other moments just as special.*

DEDICATING MEMORIES

Two outstanding citizens of our community recently passed away. They are Jim Turner and Rudy Wahling. We, the 1987 Lomega Annual Staff, feel that both of these men were an asset to our community. For this reason, we feel honored to dedicate the 1987 Raider in memory of Rudy and Jim.

Now matter where the school activity was located, you could always be assured that Rudy would be there lending his support. He came with a smile and shared it with any one willing to partake in his teasing attitude. "Rudy had a constant interest in the kids. He always went to the different activities. He enjoyed all of the kids," stated Lorraine Stewart, a good friend of Rudy's. On most weekends Rudy could be found hunting coons, but probably the thing Rudy liked best was going to the basketball games. His support and generosity will always be remembered.

When we think of Jim Turner, we immediately think of Turner's Cafe. In Loyal, it is still a popular place to meet for talk and home-style cooking. Anyone who has eaten at Turner's Cafe will appreciate and remember Jim. He spent many years making Turner's what it is today. Besides owning the cafe, Jim also drove the school bus for Lomega. "He made riding the bus fun, especially when we got to stop for chewing gum and candy," exclaimed a former bus rider. He and Cora both supported the school and allowed us to use their multi-purpose golf cart. His memory will live on through Turner's Cafe.

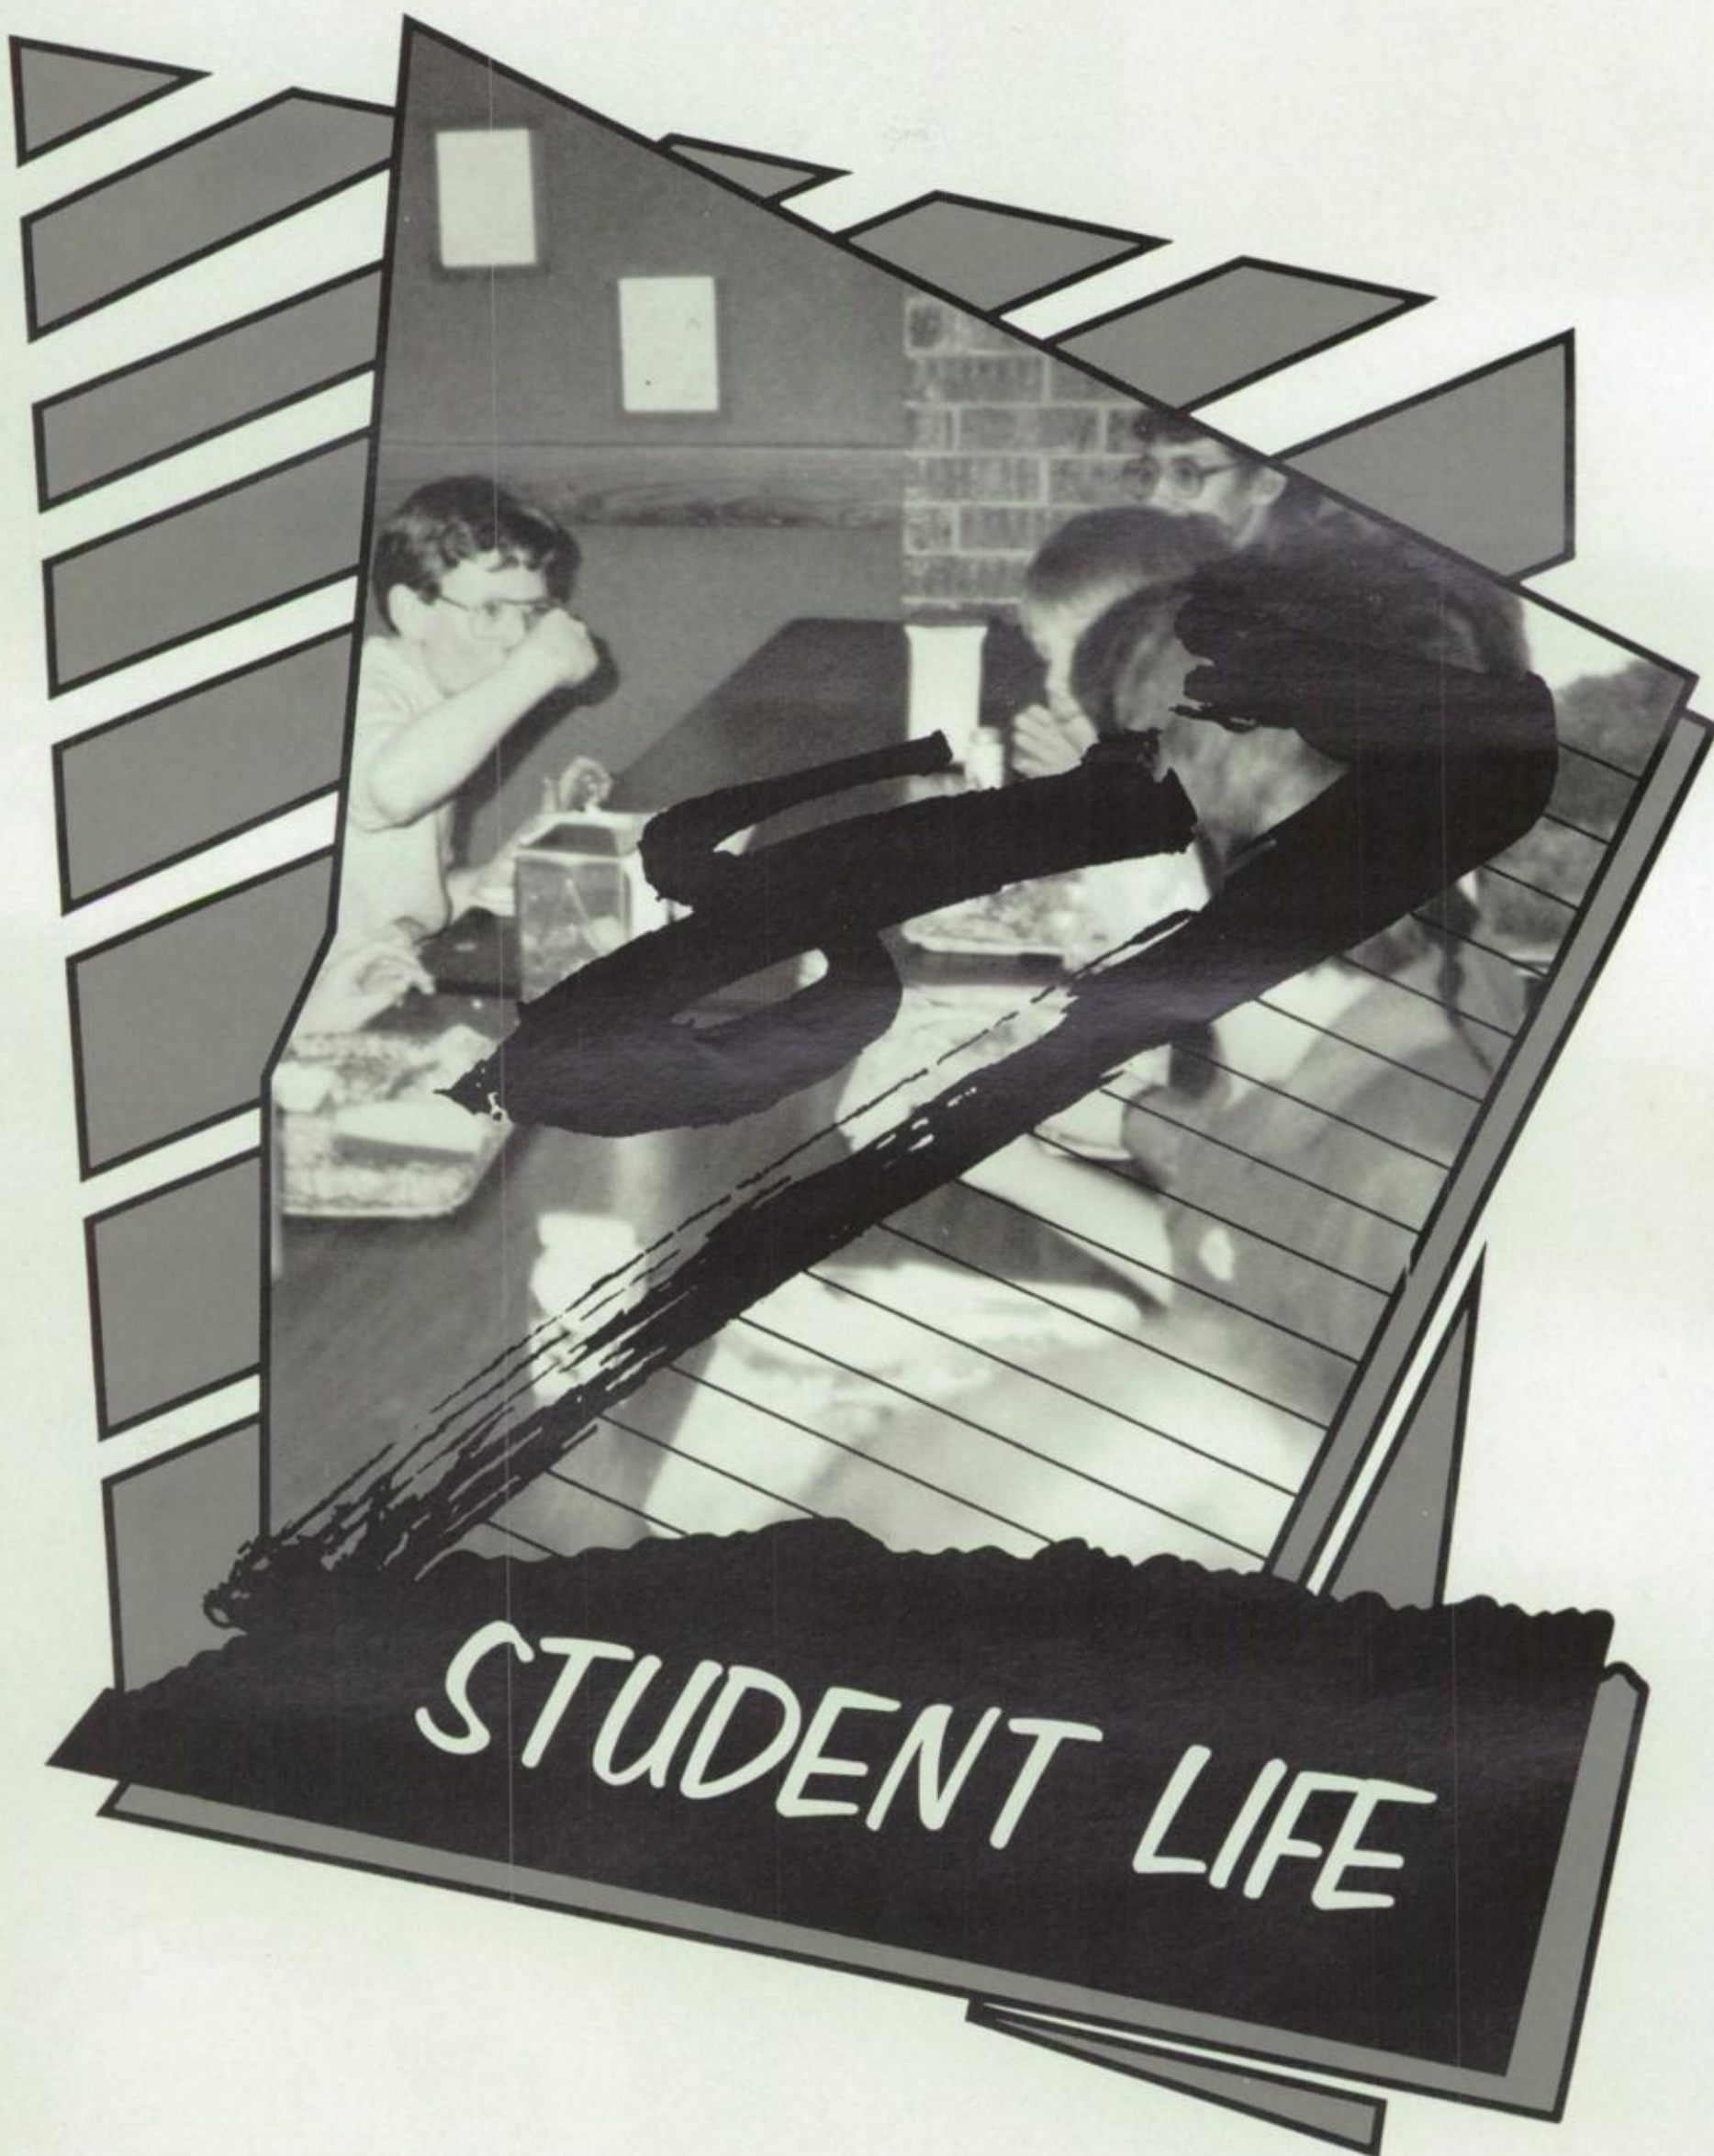

Both of these men possessed characteristics that truly made them special. May we continue to remember their support and kindness.

THE THRILL OF BECOMING GROWN-UP

Co-Sponsor
City Pharmacy

Kingfisher, Okla.

In a youth's impatience to grow-up, the anticipation of starting to school is just the beginning of new experiences to which one looks forward. When one finally does reach a milestone there is another one lurking ahead and the endless wait begins all over again.

Joy Gould proudly gets ready for her first day of school.

The arrival of Amy Garm's new sister, Jan, was a thrilling event that made Amy feel very grown-up.

Uncorralled energy is present when a young athlete receives a basketball suit for the first time. Each has a dream of becoming as skilled as their favorite hero and of leading their team on to continue Lomega's winning tradition. Here 3rd graders Jon, Mark, Brad, Todd and Jacob receive their first basketball suit from Mr. Mendell.

It is also a thrill to finally become a teenager. Robyn Snowden looks very much the young lady as she celebrates her 13th birthday.

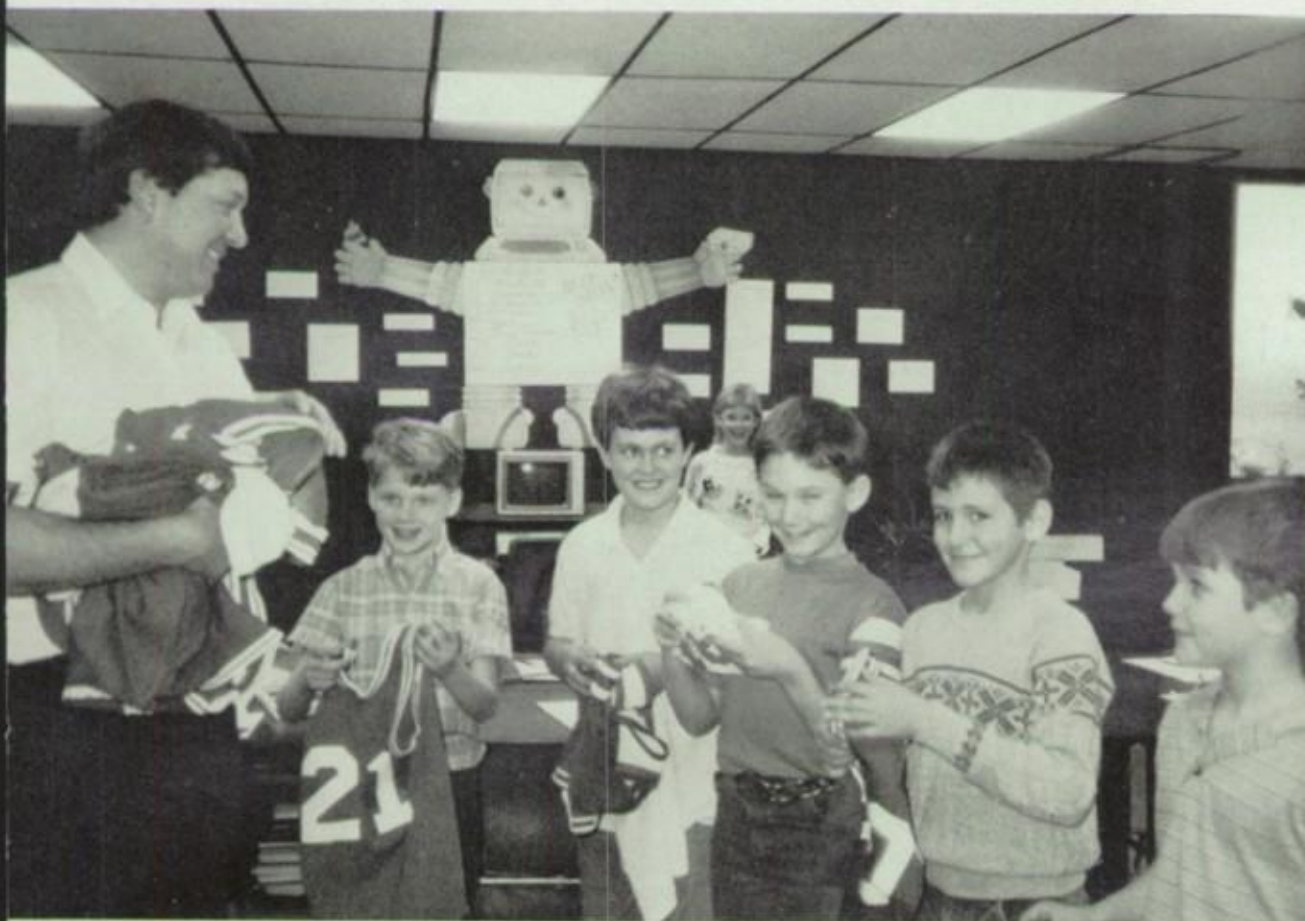

Oh, Boy, at long last a driver's license! More freedom — and then the realization that with a privilege comes a responsibility. Sharon gets her license here, and not a ticket as it appears in the picture.

It seems as if the wait for the first date is endless, then, suddenly it is here and now, of course, is the first prom. Krystal was both thrilled and frightened when she attended her first prom with David Schnell. In her own words, "I was scared to death."

The average age for a LHS student to begin dating is 15 and most of them go to a movie on their first date.

And then letter jackets, Junior rings, scholarship forms, graduation and, at last, one's 18th birthday and learning "I'm my own boss now!!" is only a myth and a dream.

After much cunning and maneuvering by Kristi and RENita, Marna was really surprised when she had her 18th birthday party.

TRANSPORTATION

There were several new driving law changes in 1987. Congress passed a law mandating seatbelt usage. This law will take affect February 1st, 1986, only affecting cars. Best of all we can drive at 65 mph instead of 55 on interstate highways. Mayby that'll keep the "fuzz" off our cases.

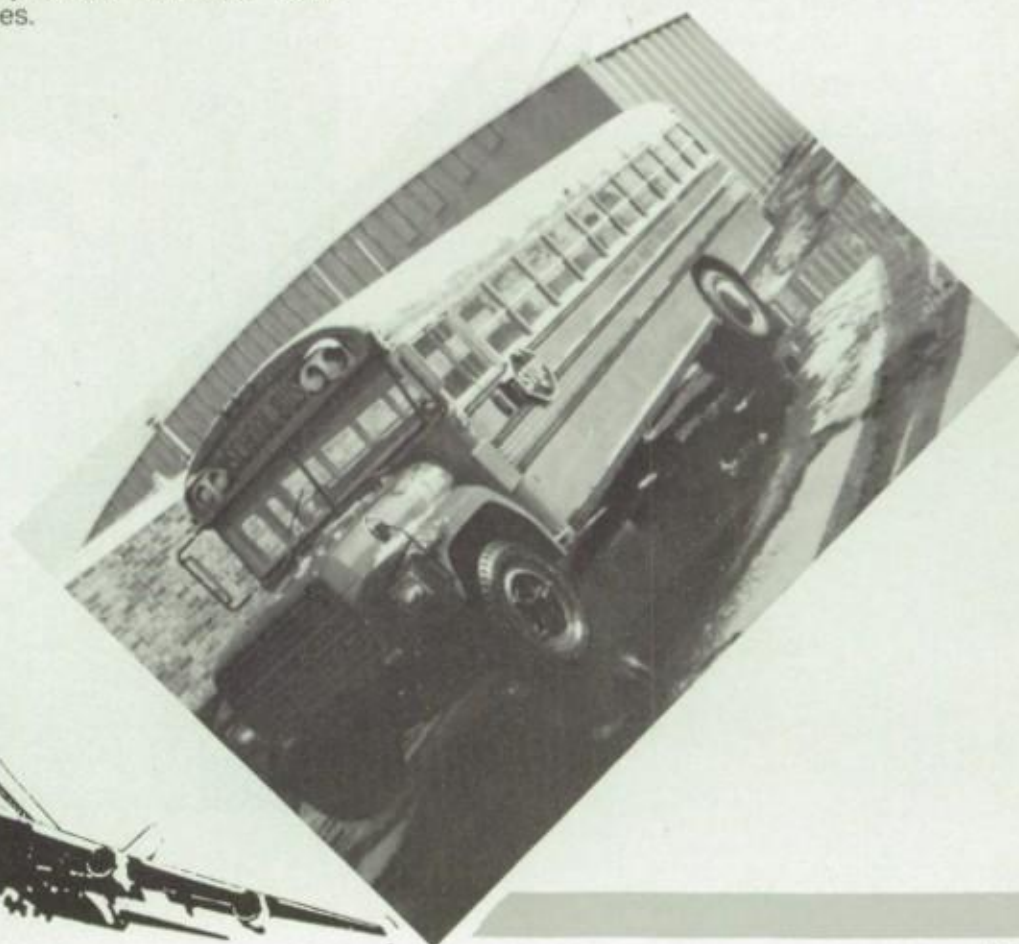

TRANSPORTATION

Lomega students and faculty manage to make it to school no matter what the conditions. Some of them ride bicycles, or motorcycles, but most ride the yellow limo (the bus). Many students and teachers bought new cars to carry them to school in style. Among the students to get new vehicles were Troy Pope, Clay Pope, and Chad Stinson. Chad totaled his pickup, and as a reward, got a new Ford pickup. Several teachers got new cars including Mrs. Prickett, Miss Ott, Mrs. Gerber, Mrs. Stinson, Mrs. Brookman, and Miss Prickett.

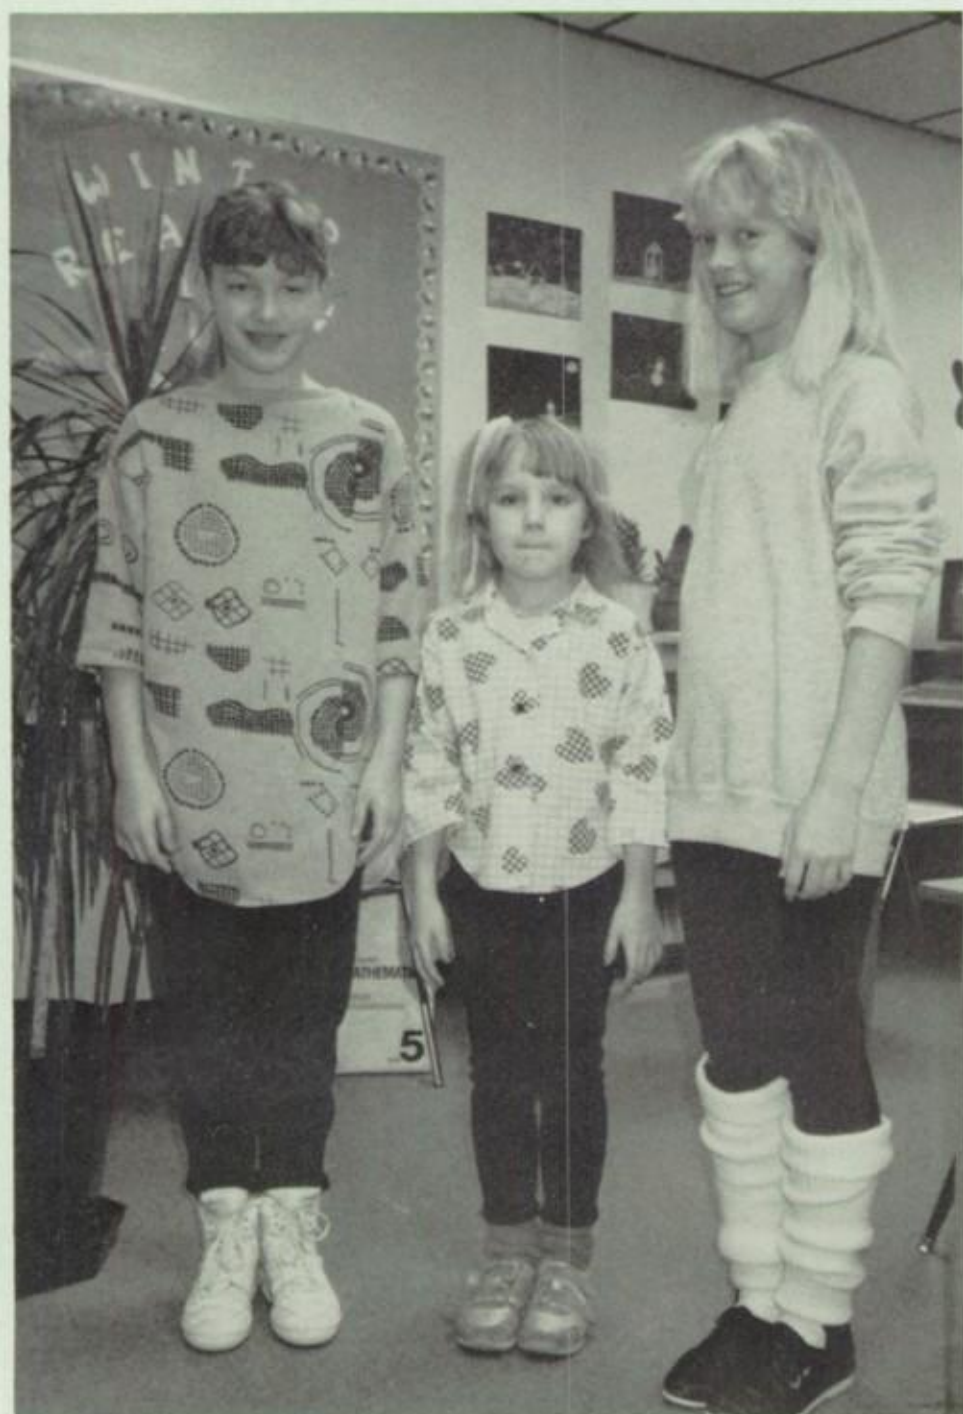

At the time this picture was taken, Mrs. Prickett had the youngest car with the most miles — 11,305 at the age of 3 ½ months. The oldest car in the line-up, driven by Miss Ott has 12,550 miles at the age of 18 months. Mrs. Brookman's family wagon has 9,732 miles after 3 ½ months. Mrs. Stinson, next in the lineup, put 9,012 miles in 3 ½ months. Ending the Lomega lineup is Mrs. Gerber who put a mere 8,553 miles on her car in 5 months, the least miles of any of our teachers' vehicles.

During 1987 the trend at Lomega is to look good. All kinds of boots are considered stylish throughout the school year. We got a little carried away during the year. As a matter of fact, we got down right crazy unless you think clothing the trees is normal. The High School janitors are the real people who maintained "High" fashion.

"Is that what you're wearing today," is the cry of despair from parents as the fashions of 1987 gets more and more expressive. Denim is powerful on the scene as Shaila, Brandi, Jason, Dusty and Jeff proudly show Mrs. Kramer their denim jackets, upturned collars and all.

Big tops, stir-up pants, leggings, and jeans are all the rage as fashion awareness

begins at an early age. Melissa giggles about her shoes, which she didn't have time to change after P.E.

No wardrobe is complete without sweatshirts, whether they're appliqued, painted, or studded. Kristi, Andi, Shelly, Amy, Milea and Stephanie get right in on the act in their comfortable school clothes.

YOUTH '87

DEVELOPING SKILLS

PAINFUL, BUT

REWARDING

PRACTICE, PRACTICE, PRACTICE gets awfully monotonous at times when you would rather be doing something else. Then as trophies are won, honors are earned, praise is received, and goals are

achieved, you know that all of those painful hours necessary to develop a skill are, indeed worthwhile.

Lomega students are willing to put in the time needed, whether it is learning to

read and do "times", develop musical skill, strive for athletic excellence or maybe, like Jayme Scheffler, go for oratory achievements.

Wade Witt competes in Karate, Charlie Bob Yost and

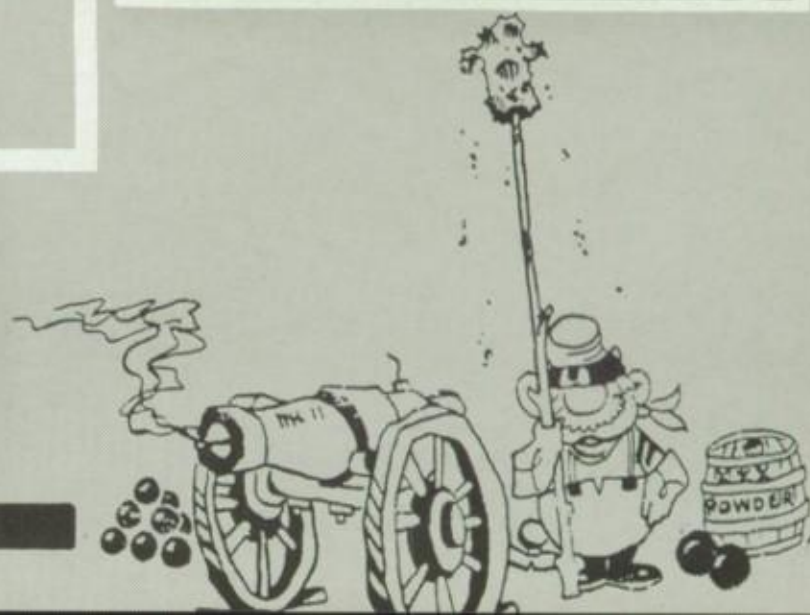

Randy Waters find a secluded place to practice reading. Jacki Schroeder uses her talents to play the piano at a music program. Linda Witt's talents are appreciated at LHS, too.

SANITY?

During the school year so many things are happening that Lomega High School sometimes resembles a mental hospital. Some of the students or patients appear to have fatal symptoms of exhaustion, while others seem to have gone plain wacko.

Some of the patients arrive early and spend their extra time relaxing in a casual atmosphere, while others crowd together for some fun and laughter. A few students fall into depression and hide from the real world, but if one student learns something during all this chaos, then the time and money were well spent.

AN INJECTION OF EDUCATION

FLOOD WATERS RUN DEEP

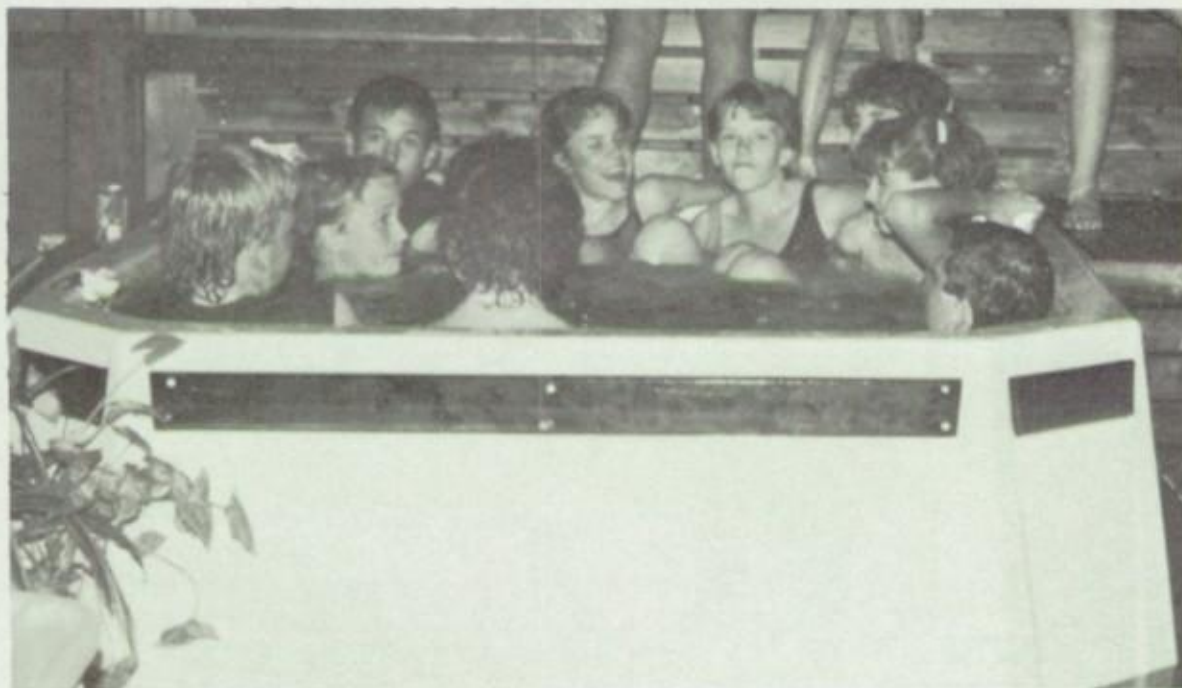

Unexpected Vacation

September 28th, it began to rain. It rained for two weeks, Saturating the ground with approximately 20 inches of water. This caused the loss of 3½ Days of school, Millions of dollars worth of top soil and road repair to the surrounding areas.

Striving?

During all the seasons the Lomega students are active. No one knows what keeps them going or what keeps that gleaming smile on their face, but it makes the teachers proud when the students keep striving and smiling.

SEASONS HAPPENINGS

AMAZING HUMAN TRICKS

The students at LHS look like the students from any other school, don't they? Or do they? By looking at these pictures you can tell that we have some people who can do some amazing things. BELIEVE IT, OR NOT.

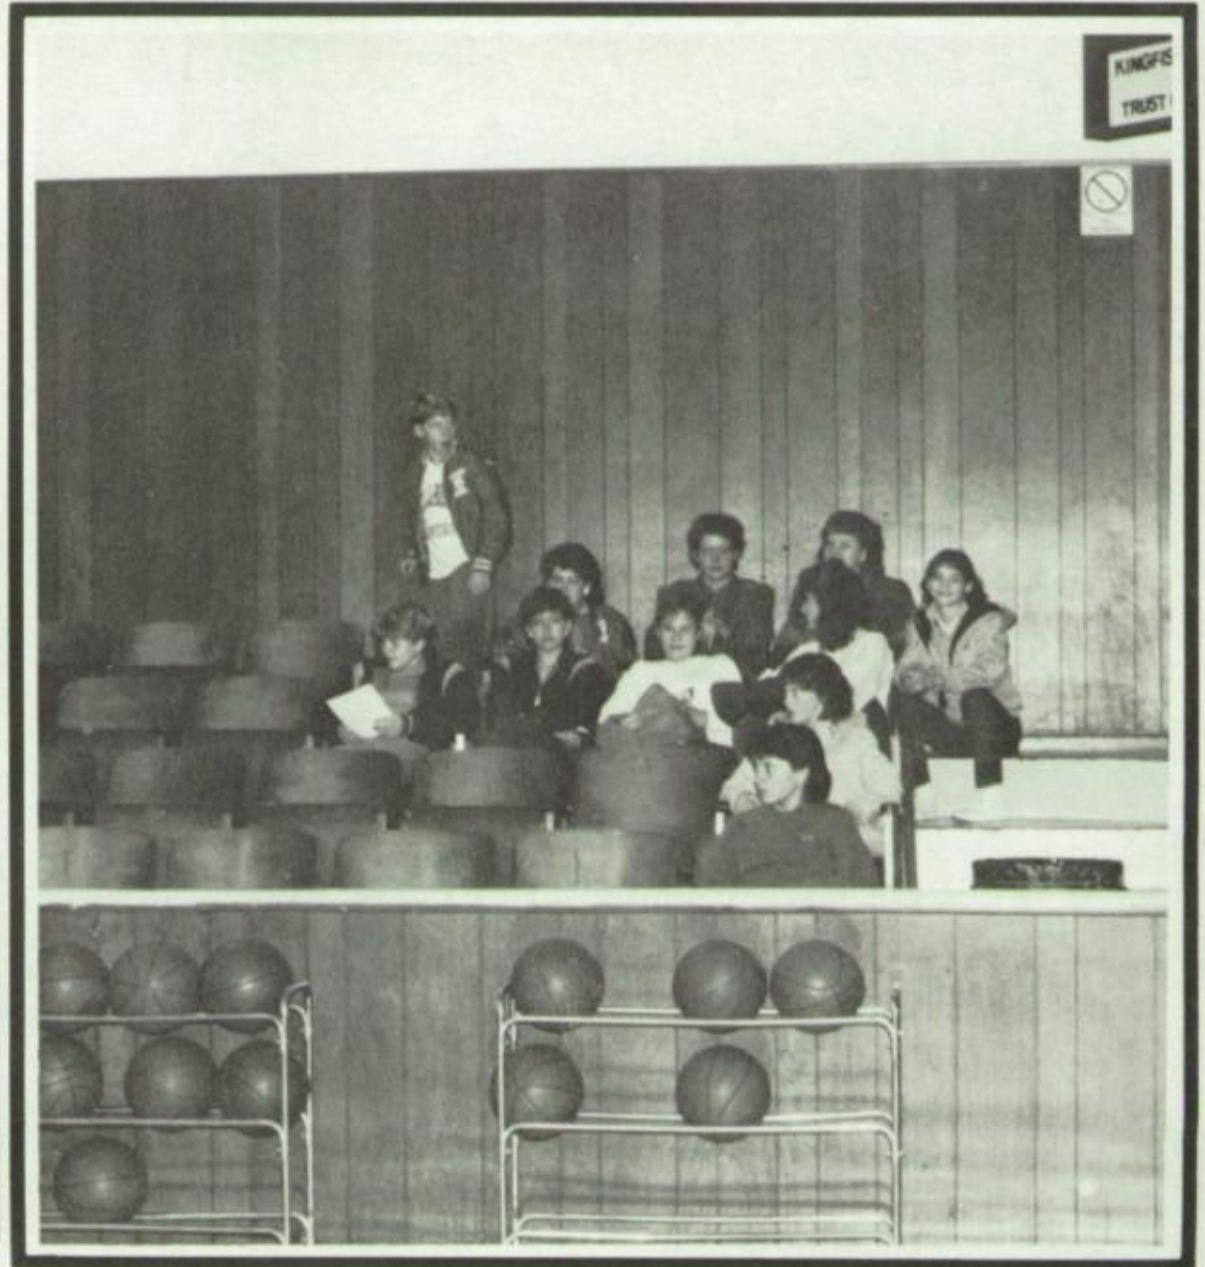

VENTURING NEAR AND FAR

Even with all the hustle and bustle of school life, students at Lomega Schools still find time to partake in a few leisurely trips. Some of the places visited by Lomega students are OSU campus; San Antonio, TX; South Padre Islands; and the Silver Dollar City Arts and Crafts Show.

BREAK TIME

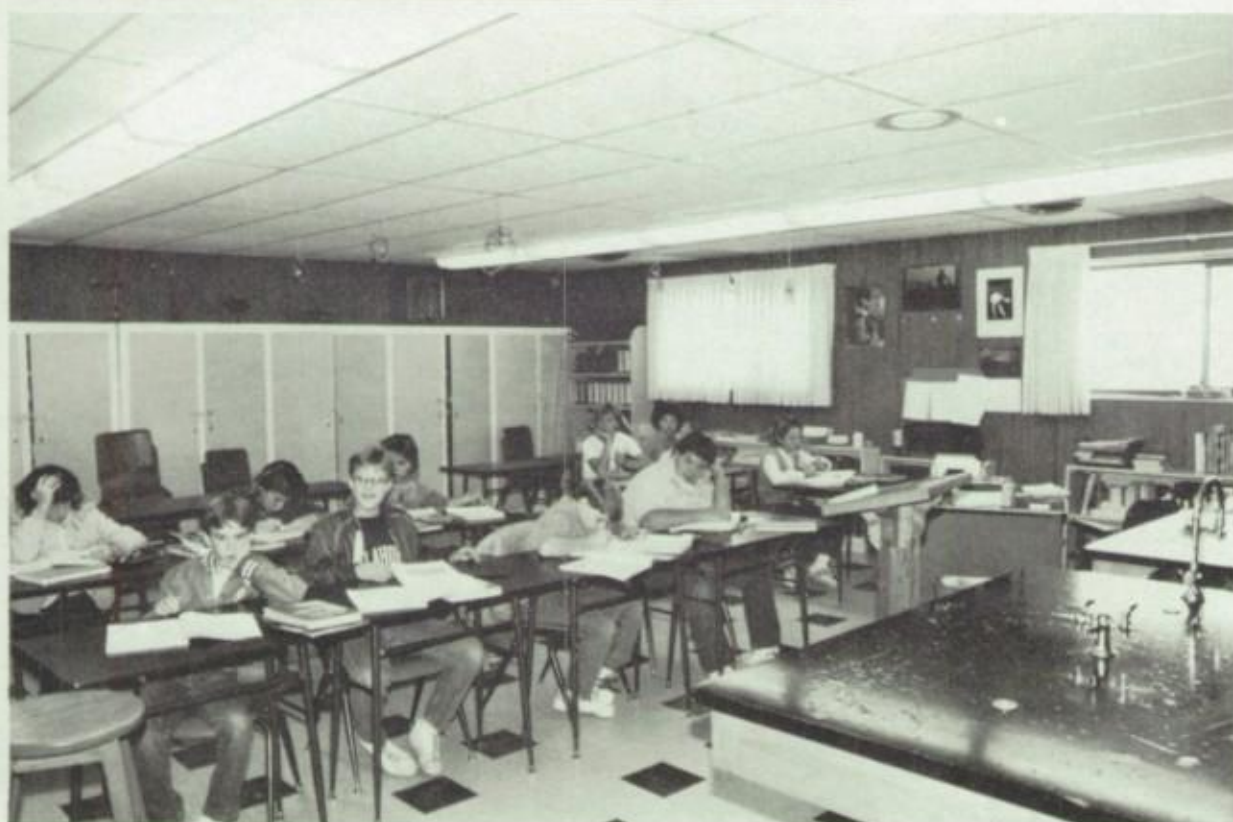

Everyday is affected by school, from the time we wake up until we hit the sack.

Before school everyone gets ready for the ride to school. At noon most of the students eat and relax. After school the students used their time to unwind and finish up their class projects.

Even though there are some wild times when students don't accomplish very much, we are able to change gears and get serious. Lomega High School is proud of the success that their alumni have achieved and are trying to follow their example. The seniors of 1986 scored an average of 21.4 on their ACT tests. Also the 86-87 fourth graders scored well above the national average on their achievement tests last spring.

EIGHTH GRADE: THE CHOICE OF A NEW GENERATION!

"If there is any class that I'd hate to repeat, it would be the 7th and 8th grade, because you're at the bottom of the totem pole," said Marna Scheffler. At Lomega, 7th and 8th graders often times do feel that they are the "bottom of the totem pole"; they can't have a class money-making project, they can't drive legally, and worst of all they aren't allowed to date. "Everyone thinks and treats us like we're kids." However, the 7th and 8th graders have discovered that if they act mature, they'll be treated with respect. "We even feel that we've helped bring excitement to the school, 'cause without us LHS would've been a total bore!"

These freshmen play basketball, are cheerleaders, do homework (bleah!), hold money-making projects, and numerous other activities. What about the problems they are faced with due to being so involved?

"Among other things, boyfriends and girlfriends, or a lack thereof, were also a problem. But we could depend on our friends to help out with that situation most of the time," says freshman Jacki Schroeder. The Class of '90 have definitely made their mark at Omega.

"You've just entered high school and you're immediately faced with big changes. Teachers expect more

out of you, there's more homework and the classes are a lot harder." This statement made by Brandi Lewallen, is how most of the sophomores felt at the beginning of the year.

High school basketball, Tom

Mark Quintle best sums up his class by saying, "Being a sophomore is O.K., but I'd rather be a senior."

Lazy Outgoing, I like 'em.

The somewhat flamboyant Junior Class means many different things to different people as was expressed by Mr. Geis when he said, "they are a very diversified group." And Mrs. Stinson candidly described them as "totally different and hard working."

They are a class other classes

can look to. The Juniors were also described as exciting, interesting, fun to be around, good basketball players, and sometimes having the tendency of not living up to their potential.

Then John Rempe squares his shoulders and proudly announces "The Junior Class is a group of very sophisticated, smart, intelligent young men and women."

However, Marna isn't all sheep and books, there are many traits that make her the walking encyclopedia that we all know and love. Her advice to underclassmen is - "Work hard to achieve your set goals, but have fun doing it." Renita likes pizza, French fries, and Dr. Pepper. Her favorite music is rock and she listens to KJ-1-3 where she can hear her favorite singers Bon Jovi and Prince. Renita loves to watch "Days of Our Lives," read, and her favorite color is green. Clay Pope

"BE YOURSELF"

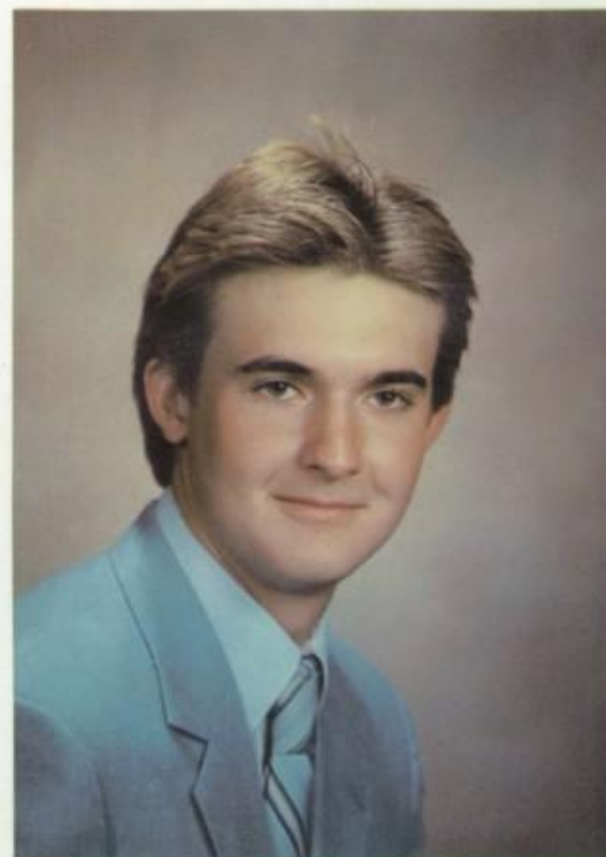

is the advice of Clay Eugene Pope. Born on September 16, 1969. Clay is the son of Mr. and Mrs. Bill Pope. He enjoys pizza and Dr. Pepper while listening to KATT or Hank Williams, Jr. Some of his other pastimes are fishing, partying, or supporting his favorite team OSU, where he plans to attend college next year. Clay's dairy cows and shiny new 1986 fire engine red Ca-

President is the office Clay most often holds. He is the president of FFA and the senior class. He also was the Junior class president. Maybe we are seeing an indication of things to come.

Clay's dad, Bill Pope told the yearbook staff that "Clay is an independent individual" when we asked him how Clay differed from his other children, Steve and Vandella.

Good luck, Clay, in whatever career you pursue, but the yearbook staff believes you would make a good lawyer.

Mrs. Karen Gerber, English Teacher, thinks that just when you least expect it Warren can be quite nice and kind. Born in Tulsa on the 25th of May in 1969, Warren Lee Stallard is the youngest child of Fred and Dorthea Stallard. Warren enjoys eating pasta, drinking coke, and listening to Rock 100 the KATT. His favorite movie is "Porky's Revenge, but at home he relaxes by watching "Who's the Boss?" This blue-eyed, blonde, computer whiz would love to someday drive a red Mustang Mach V. Warren's advice to underclassmen is "Stay away from the faculty

when you're doing something wrong." His most enjoyable experience this year was getting to spend half a day 5 days a week at the Vo-Tech school near El Reno. Warren's future plans include going to Southwestern Technical College in Oklahoma City.

Matt Watkins

AC/DC Coke, pizza, and the color blue are just a few favorites of 5'8" senior Matt Watkins, son of Norma May Matkins. Born January 21, 1969, Matt enjoys hunting and partying. His favorite car is a '69 Gran Torino and his favorite movie is "Crocodile Dundee. Matt has no advice to underclassmen, but his favorite saying is "Ask me if I care." Matt was able to improve his mechanical skills this year at the Vo-Tech school near El Reno. His future plans involve going to Okmulgee Tech and becoming a diesel mechanic.

When asked about "Remember when", Matt answered, "Nope." Does he really not remember or does he just choose to forget.

Matt spends any spare time he has at school in the farm shop. Mr. Witt announced one day that "You just put Matt in the shop, give him plenty of projects to fix and he'll

When Mona Prickett isn't busy controlling the '86-'87 seniors, she's sewing, reading, or doing one of the many crafts she loves. If something goes wrong in her life you'll hear her "Dadgum," or "Cuss words." She and her husband Gale have one son, Tommy. Her advice is to "Be Productive."

Mona Prickett, Spon.

Not only a teacher, but the mother of two boys, Shane, age 8, and Kevin, age 4, Karen Gerber has her hands full, especially since she is co-sponsor of '87 seniors. She enjoys sewing, playing the piano, and Gone With the Wind. Her husband "Mad Max" works for the county. He really has his hands full since he has to look after 2 kids and MRS. GERBER.

VOLUME 1
CHAPTERS K-12

Life is like a book with each chapter becoming a different story in its own, and as the kindergarteners begin their first chapter at Lomega, the seniors are in their final chapter. However, both the seniors and the kindergarteners are facing new beginnings.

The first day is always

scary, whether it's your first day in kindergarten or your first day in college or on a job. It's a time we've all experienced at least once in our lifetime — a time of new challenge. We soon learn to face our foes and conquer them without the help of mom and dad. We experience growth, independence and happiness; but, at the same time there is

also insecurity, separation, and sadness.

As we learn to make new decisions, our parents must also learn to love enough to let go, as their children move from chapter to chapter.

And so, we come to the end of Volume I — THE LIFE OF A STUDENT AT LOMEGA.

The school year of 1987 will always be known as the year of learning for the kindergartners and the first graders. While the kindergartners were learning new things, the first graders were the first to show their school spirit. Though they all like school, Clint would be the first to admit that there are some things he doesn't like. One of the things Clint and the rest of his class likes to do is play, they love Recess.

This is the beginning of their journey through education and these kids are doing just fine.

Although they appear to be busy students they always find time to be courteous to others.

The second graders learn from watching and by learning. They watch films about science, manners or what ever they need to know for life. They do work on their classes to keep their minds active. These students are very active in school and at home.

Mrs. Sipe remarked that the fourth graders are "interested in learning." While Mrs. Kramer enthusiastically reported that the fifth graders are "small but mighty." The fifth graders and sixth graders are different; yet alike in many ways. The fifth graders are ready "to be the rulers of the school". Meanwhile the fourth graders have already decided on their careers-from a baby sitter to Bozworth II. As fourth and fifth graders, Shawn Reiswig dreads report card day and Andi Mendell enjoys playing basketball. It looks like both classes are ready to take on the world.

"This class will keep you 'entertained.' They are never at a loss for words," remarks Mrs. Teders, their sixth grade teacher. The sixth graders have come a long way, but they have a long way to go. Most of them have mixed feelings about moving up to Lomega Junior High. Some think its great and they are ready to be challenged; while on the other hand, some of them are a little scared. Take for instance, Wade Witt, who commented, "No, I'm not ready because Dad's up there." The Sixth grade feel that the word that best describes their class is ... CRAZY!

FUNCTIONS

NEW LEADERS . . .

The Future Farmers of America are the young men and women of Lomega who work to keep agriculture a tradition. In a small rural community in Oklahoma, many jobs are related to farming. FFA members have attended conventions, speech contests, livestock shows, and quiz contests. Shop projects, a rib supper, a slave sale, and the faculty

breakfast also were included in the long list of this group's activities. They learn leadership, cooperation, competitive skills, record keeping, and, independence.

Besides all of the learning experiences, whether it is a show or a convention, they also get a chance to make new friends.

STUCO

LHS coronation and dance, a dress-up week which includes a poster contest are the responsibilities of the student council.

Each Class entered a float and though they were all winners in their own way the float chosen as best was the freshman float.

Mrs. Gerber really got into her part during the Halloween dress-up contest.

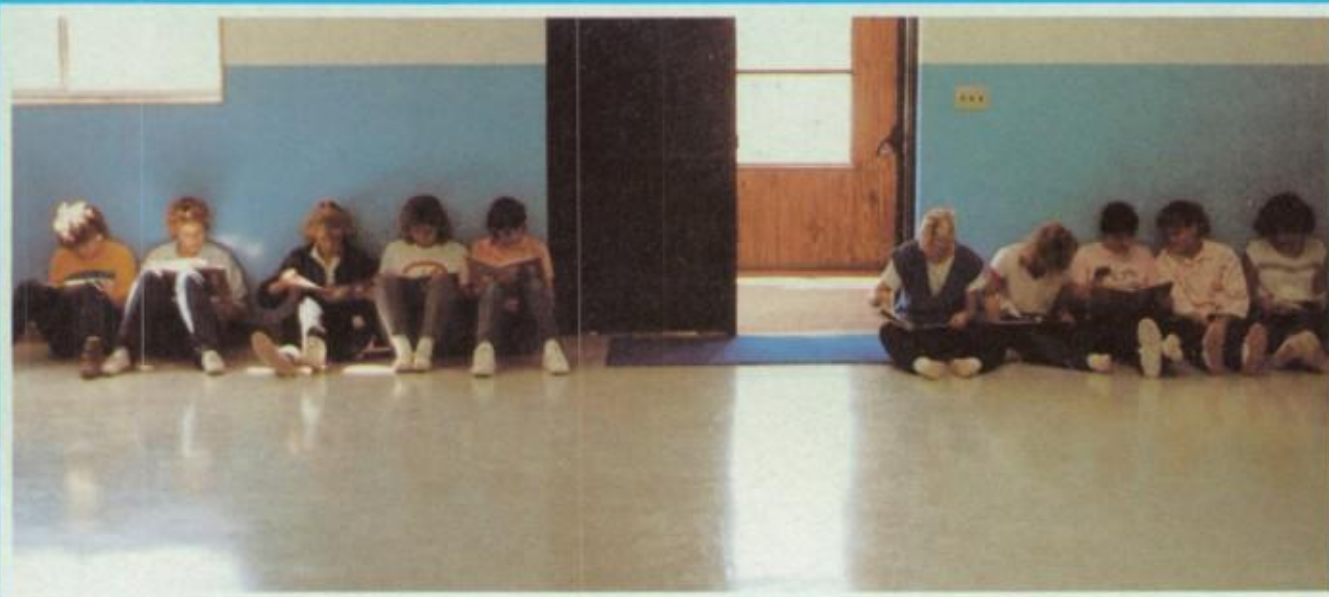

ANNUAL STAFF

How many double page spreads ya got done? I don't know, do you know where the LHS pictures are? Guys, we have to get those pages in for this deadline. I'm having a severe mental block over here, can someone help me with this copy? What have we got to eat today? GET TO WORK!

These are all familiar statements from the Lomega Annual Staff. Pages are being done at the last minute, and Mrs. Prickett is quickly going BEZERK. "I'm going stir crazy, soon as I get this done I have got to take a break." An all night stay at Mrs. Prickett's house helped us to "finish up the book" (Ha-Ha!) Oh, they'll get it done all right, but not before they have misplaced their pictures, and redrawn their pages several times. It's alot of work to be on the Annual Staff ... "DONE!!!"

EXCELLENCE

The new 1987-88 FFA sweetheart is Krystal Glazier. Krystal was crowned by Clay Pope, President this year.

The Lomega FFA chapter is very proud of its members this year. They have gone to speech contests, stock shows, and seminars to represent their chapter and to better their FFA program. Not only has this year been very active, but it is also the first year a female has been elected president of the Lomega chapter. Krystal Glazier is very proud to be elected the role of president and is looking forward to leading the Lomega FFA chapter.

Krystal takes over the duties as the 1987-88 FFA president.

ACADEMICS

BUDGET CUTS SLOWS SCHOOL PROGRESS

Oklahoma's plunging economy made continuing the high standards of Lomega difficult for the Lomega Board of Education. Decisions were hard to make and were made only after much deliberation and with much professionalism. For this, the student body expresses their thanks and respect.

The board members this year were Tom Glazier, V. Pres.; Robert Oppel, Pres.; Ronald Snowden, Clerk; Danny Geis, Member; and Lucille Rempe, Member.

Backing up the superintendent and board while they are dealing with policy making are the principals, Mr. Steve Mendell and Mr. Tim Geis.

Mr. Mendell is shown here having a fatherly talk with Kane Yost and Dusty Dufly.

Mr. Gayle Hajny, at his superintendent's desk, is always ready to receive any suggestions.

INVOLVEMENT PROMOTES EXCELLENCE

Lomega's faculty stays involved in the activities of the students. Each individual strives to make their program excel.

As a result of these efforts, the Lomega students strive to meet the challenges set forth by the teachers and themselves.

The Valedictorian was Richard Brookman Jr.

The acceptance of the Key was delivered by Clay Pole and received by Joy Vilhauer

I'm outa here!

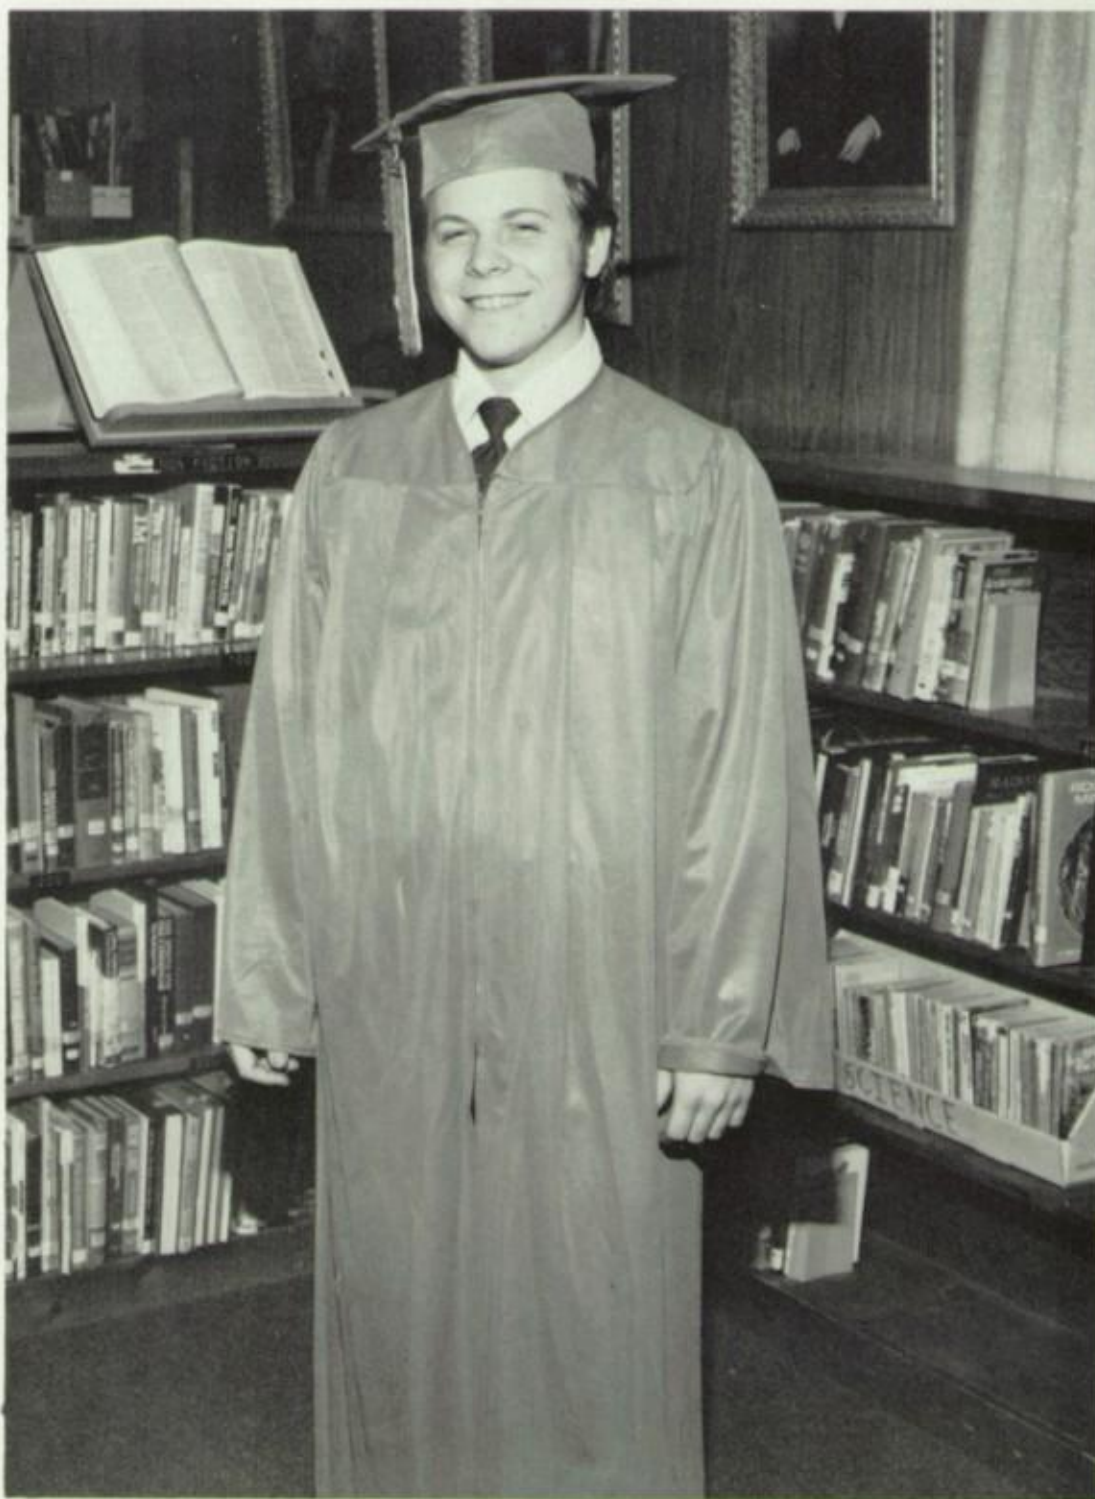

Richard Brookman Jr. earned the prestigious position of valedictorian of the 1987 Graduating Class by maintaining a grade point average of 3.89 for seven semesters.

Making grades and learning as much as possible was a goal that Richie has had since he was a Freshman. Richie said that was when his parents told him that the better grades he made the better chance he would have for scholarships and the better prepared he would be for life. Then Richie laughed and said, "Well, what they actually said was 'Make good grades or we'll whip your butt.'" Well, Richie, did study hard and won the John Allen Memorial Scholarship.

Eighth Grade Valedictorian

The valedictorian of the Eighth Grade Graduating Class, Julie Geis, with a perfect 4.0 average for three semesters. Her graduating speech entitled "A Formula for Success" deals with treasuring memories but looking forward to the future by setting high goals.

Julie has set a high standard for herself as she tries to continue with her 4.0 average throughout her high school years.

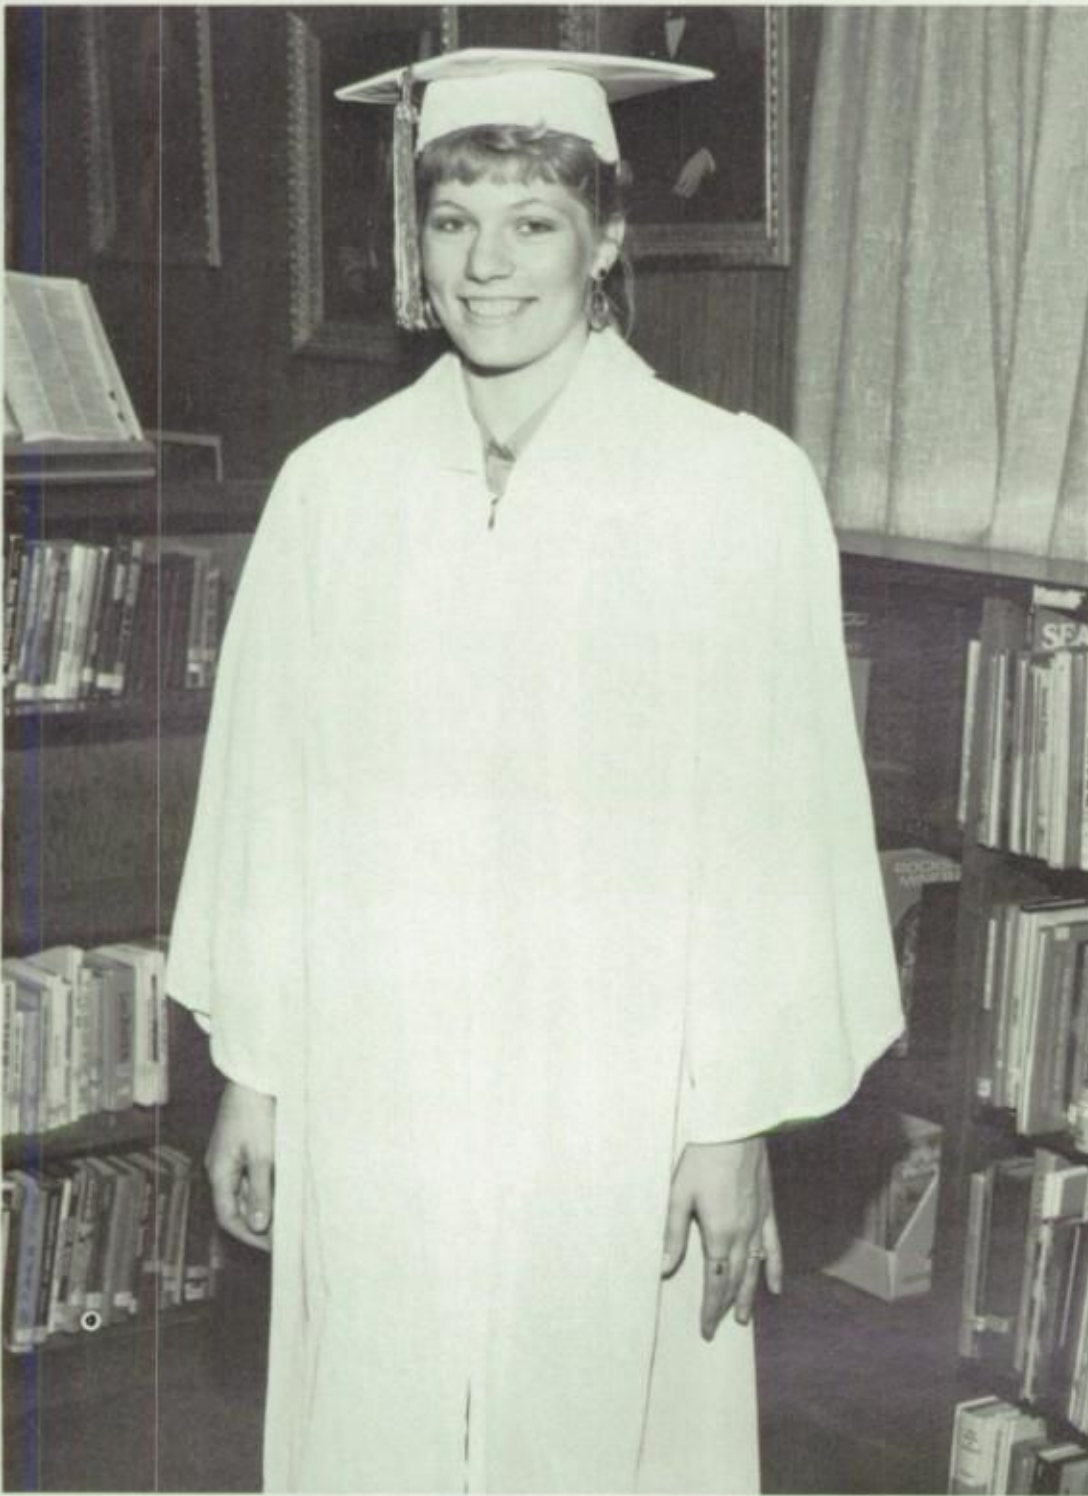

Kristi Lorenz receives award for winning the Essay Contest "Ability Counts." She also won the DAR award, the Lion's Club Student of the year, award and the Armed Forces "Scholar Athlete" award.

The members of the National Honor Society were (back row) Richard Brookman, Brandi Lewallen, Holli Meier, Kimberly Wehrenberg, Jayme Scheffler, (front row) Sheila Parham, Joy Vilhauer, and Shelly Pope. To become a member of the National Honor Society a student must maintain a 3.75 grade point average for two semesters.

As a result of their efforts, these students were honored with an evening out at the Eagle's Nest Restaurant in Oklahoma City.

Miss Kristi Lorenz, the 1987 senior salutatorian, flashes her infectious smile and wins the hearts of those around her. But behind the smile is a mind that works constantly planning her goals and how to achieve them. Kristi is very conscious of the importance of accomplishments and the dedication and hard work it takes to achieve a goal. This knowlege made it possible to achieve the position of salutatorian and to receive several scholarships, including a full four year basketball scholarship to SWOSU and another scholarship for her essay "Ability Counts."

Eighth Grade Salutatorian

Drive and determination, a competitive spirit, and using her inherent intelligence allowed Michelle Campbell to maintain a 3/89 grade point average. Keep up the good work, Michelle.

The recipient of the Oklahoma Honor Society awards are Richard Brookman, Jr., Brandi Lewallen, Sheila Parham, Joy Villhauer, Shelly Pope.

Amy Garms won state honors by writing an essay. Here she receives her award on tv.

1. Oh no, there it goes, Shelly! 2. "Come to Momma." 3. STATE CHAMPS 4. The team behind the woman. 5. "And they all fall down." 6. At last ... the GOLD BALL. 7. The beginning of the end.

As basketball season begins, the Lomega community fills with excitement. Everyone watches and follows the teams in hopes of making a State bid. The team realizes that every player is a vital part of the team's success. Each individual has a goal and will do anything to accomplish it, but at the same time, the individual is thankful and appreciative of the people who helped mold them into what they are today. She also realizes that every time she steps foot on the court she is representing her parents, her team, her school, & her community. At the same time she must be an example to the hundreds of tiny eyes watching-ready to mimic her every move. As playoffs begin, the excitement and enthusiasm is doubled. Everyone pulls together as the path towards State gets tougher. And then, finally, it comes, the State Finals. The hard work, the dedication and all of the sacrifices have finally paid off. The team is on center stage faced with a great challenge. This year the Lomega Girls basketball team won the Class B State Championship/for this we are very proud of them.

Kindergarten '87 Senior-'99

The Kindergarteners began their formal education in 1987 in a year of excitement and curiosity! Mrs. Helgeson, their teacher, took them from being slightly frightened to confident and yearning in their quest of knowledge.

A good foundation is essential for these students to grasp the vast amount of knowledge they need to accumulate to become graduating Seniors in a futuristic world in 1999!
